

Our economy isn't working for too many people, and it is even more difficult for women.

I support HB 6932 and HB 6784 because they allow workers to balance caring for their families and their jobs.

I don't think that workers should go to their work and spread whatever disease they have. This is especially dangerous when they are restaurant workers.

I also think that parents should be able to stay at home if a child is sick or adults should be able to care for their parents when they are unable to take care of themselves. These days that a worker will stay away from work although not sick themselves should not turn into a punishment by not paying them.

Please support the two laws HB6932 and HB6784
